Ministry of Transport and Roads of the Kyrgyz Republic

First Phase of the Central Asia Road Links Project (CARs-1), financed by World Bank

Translator/Interpreter/Office-manager/ (English-Russian-Kyrgyz)

TERMS of REFERENCE

Background

Within the framework of Central Asia Regional Economic Cooperation (CAREC) Program, the countries of Central Asia are working together to increase regional transport connectivity by coordinating investments in transport infrastructure and aligning respective policy and regulatory reforms to make the impacts of those investments sustainable. This is to improve the region's competitiveness, reduce poverty and expand trade, both among Central Asian economies, regionally, and globally. CAREC program focuses on investment and other activities along six transport corridors that link north, south, east and west through Central Asia. Specifically, the Governments of Tajikistan and the Kyrgyz Republic approached the World Bank to consider financing for the Osh-Khujand road corridor as part of a regional program, using national IDA funds to leverage regional IDA funds which are additional to the national IDA country envelopes.

The proposed Osh-Khujand Road Corridor Improvement Project is proposed to form part of a regional program on priority road corridor improvements in Central Asia which is expected to have substantial positive impacts on poverty reduction and economic growth, not only because of the high population density along the catchment area of the corridor, but also high poverty rates and related impacts on cohesion and migration.

The Ministry of Transport and Roads of the Kyrgyz Republic runs an Investment Projects Implementation Group to carry out consulting assistance to the Executing Agency for the successful implementation of the program financed by the World Bank.

The Executing Agency requires a **Translator/Interpreter/Office-manager** (**English-Russian-Kyrgyz**) to take necessary actions in implementation of the Central Asia Road Links Program.
